

WEB DESIGN AND PROGRAMMING
ACCOMPLISHMENT REPORT

Name: **Cyrus S. Gan**

Section:**2-IT4**

Group Number/ Project Title: **Group 8**

My accomplishment report is that I help by supplying things that can be used or put on the web and our website is about food, so I suggest what consumers might like and also suggest of what food is nice and light in the stomach. This website we made for CCC students who didn't know where to eat or didn't know where to buy food and this is also for, the new students who have never been around the CCC, so that they don't have to worry about where they can eat. That is close to the school.
