WEB DESIGN AND PROGRAMMING
ACCOMPLISHMENT REPORT

Name: Harvie Tan   Section: 2-IT4

Group Number/ Project Title: G8 / Mukbanghub

I am the one who writes the codes of our project or system. I started my coding in the section of Homepage wherein I put two images, header, and some sort of texts and buttons. Also, I am the one who writes the descriptions on the Homepage. After finishing the homepage, I write codes for the Menu section, which is the very difficult one for me because of assigning the positions of each elements and contents for this section. And lastly, I just simplified the about section wherein I or we will upgrade it in the following days.
